

Wild Horses Kimberley

RECOMMENDATIONS FOR LAKE GREGORY

- 1. That the lease be changed to allow Tourism as the main activity and a Manager and crew be employed to oversee the transformation of the lease and installation of infrastructure.**
- 2. That the lake be fenced with solar driven 2 strand electric wiring and steel uprights with water points for horses which can be maintained using solar driven pumps.**
- 3. That all existing bores and wells on the station be reactivated using solar driven pumps and water troughs.**
- 4. That all cattle be removed from the RAMSAR wetland.**
- 5. That portable panels be used to trap horses at water points for PZP injection to mares on an ongoing monthly basis.**
- 6. That infrastructure at the community be upgraded; shop, community hall, camping facilities around the lake and an entrance fee be charged (eg. Mt Elizabeth \$100)**
- 7. That the community activities focus on information for tourism (cultural history, birdlife, wildlife, horses) and maintaining fences and water points.**
